# WHAT OUR CLIENTS THINK

We were looking to move home and Sandy introduced us to Equity release which was perfect for our circumstances. We now have a lovely home and no money worries. She could not have done anything more, she was just perfect.

Due to ill health we needed to release some funds to give us breathing space. Sandy gave us professional and friendly advice and explained everything. We are now in a better position financially and found Sandy really helpful.

I needed sound advice and complete trust in someone to help me make an important decision about my future. Sandy explained everything in layman's terms and any concerns I had were fully discussed. I have now achieved what I wanted and found Sandy extremely helpful.

We were looking for a way to find extra money for our retirement without any hassle and were recommended by our financial advisor. Sandy went through everything with us without being pushy but just very professional and friendly. We are in a better position that we thought possible and she couldn't have given us any better advice.

I do not have any dependants and decided to release equity from my property to provide me with a better quality of life and peace of mind. Sandy advised me throughout the process, explaining all the pitfalls and advantages. She was always available for any queries I had and responded to them promptly and efficiently. She couldn't have done more she was first class.

I wholeheartedly recommend Sandy to family and friends.
